## SECTION-2 INTRODUCTION

### 2.1 Overview:

The TEQIP-III Project will be implemented as a “**Central Sector Scheme**” (CSS) which means 100% funding by the Government of India. An around 200 engineering institutions will be participating in the Project.

It is aimed at (1) Improving Quality and equity in low-income and special category state (2) System-level initiatives to strengthen sector governance and performance (3) Sustaining excellence in engineering education and widening impact through competitively-selected institutions in non-LIS/SCS.

The TEQIP-III Project will have a span of **three years** and shall cover the following financial years which may be further divided into Quarters for reporting as well as monitoring purposes:

- 2017-2018
- 2018-2019
- 2019-2020
- 2020-2021

### 2.2 Purpose of the Manual:

The prime objective of evolving this manual is to bring in uniformity in Financial Management arrangement of the project such as accounting, financial reporting, audit etc. and to make participating CFIs / States Institutes / SPIUs familiar with the guidelines and standards to be adopted while implementation of the project task, and, in particular, to provide broad guidelines to them in respect of different issues concerning financial management. It is also hoped that this manual will provide supportive information in complying with the rules set henceforth.

### 2.3 Project Design:

TEQIP seeks to enhance quality and equity in participating engineering education institutions and improve the efficiency of the engineering education system in focus states.

The Project will support two components:

Component - 1: **Improving quality and equity in engineering institutions in focus states**

- Sub-component 1.1 : Institutional Development Grants to Participating Institutions

**An estimated 90 Engineering Education institutions meeting (progressively) the enabling mechanisms and based on quality of Institutional Development Proposals (IDPs), will be selected.**

Institutions are required to define the activities in their IDP that they want to carry out in the project. These activities should be under the scope of the project and are those that fulfil the objectives of the project. However, some of the suggested activities under the scope of the project are given below:

- Procurement of Goods (equipment, furniture, books LRs, software and minor items) and civil works.
- Improvement in Teaching, Learning and Research competence.
  - Improve student learning,
  - Student employability,
  - Increasing faculty productivity and motivation,
  - Establishing a twinning system,

- *Twinning arrangements with high performing institutions under Sub-component 1.3 to build capacity and improved performance*
- Recruitment and retention of high quality faculty (through better faculty appraisal systems and the faculty recruitment plan).  
(Consultant services if required, can also be procured for the above said activities.)
- Sub-component 1.2 : Widening Impact through ATUs in focus states

**An estimated 8 ATUs meeting the enabling mechanisms will be selected with matching contribution equal to project allocation.**

The various activities are to be supported by the Action Plans from the ATUs. Some of the suggested activities are:

- **Procurement of Goods (equipment, furniture, books LRs, software and minor items)**
  - *Establishing/improving ERP/management information system for student, staff and faculty data*
  - *Improving financial management and procurement*
  - *A modern HR system for efficient personnel management*
- **Improvement in Teaching, Learning and Research Competence of affiliated institutions**
  - *Mentoring of affiliated institutions and promoting of applications to UGC/NBA*
  - *Increasing faculty productivity and motivation*
  - *Twinning arrangements with ATUs under Sub-component 1.3 to build capacity and improved performance*
  - *Preparation of massive open online courses (also referred to as MOOCs), facilitating access of institutions to MOOCs*
  - *Developing credit-based systems such that students in institutions could use select e-learning courses as part of their degree programs*
  - *Greater access to digital resources*
  - *Improving institutional governance*
  - *Student employability*
  - *Centralized hubs opened to all faculty*

(Consultant services if required, can also be procured for the above said activities.)

- **Sub-component 1.3 : Twinning Arrangements to Build Capacity and Improve Performance of Participating Institutions and ATUs**

Institutions (already participated in TEQIP-I and/or II)/ATUs will be selected on a competitive basis based on pre-defined eligibility criteria. The evaluation will be based on quality of IDPs. The proposal should include establishing a mentoring system for twinning arrangements to build the capacity and improvement in performance of institution/ATUs participating under sub-component 1.1/1.2 respectively.

Institutions are required to define the activities in their IDP that they want to carry out in the project. These activities should be under the scope of the project and are those that fulfil the objectives of the project. However, some of the suggested activities under the scope of the project are given below:

- Procurement of Goods (equipment, furniture, books LRs, software and minor items) and civil works
- Improvement in Teaching, Learning and Research competence
  - Improve student learning
  - Student employability
  - Increasing faculty productivity and motivation
  - Establishing a twinning system
    - *Twinning arrangements with institutions under Sub-component 1.1 to build capacity and improved performance*
    - *Individual Institutional mentors*

(Consultant services if required, can also be procured for the above said activities.)

## Component-2: System Level initiatives to strengthen sector governance and performance

This component will support MHRD and key apex bodies in engineering education, including AICTE and NBA, to strengthen the overall system of engineering education. The activities are:

- Provide technical assistance to AICTE and NBA,
- Professional development of Technical Education and TEQIP administrators in the project States and project institutions,
- Initiatives for Effective Governance System of institutions at the level of Board of Governors,
- Implementing Direct Benefit Transfer System to ensure fund transfer electronically to SPIUs and institutions, and
- Project monitoring & evaluation.
- All institutes and ATUs in the Project, as well as those government and government-aided institutes who participated in TEQIP I and II but are not participating in TEQIP III and ATUs not in focus states, will be linked to the National Knowledge Network. Last mile connectivity will be provided by the Project.
- 24x7 broadband connectivity and Wi-Fi access in all academic and administrative buildings and hostels.
- Developing or establishing technology learning centres at all universities which affiliate engineering colleges.

### 2.4 Project Financing

Lending instrument: The project will use an Investment Project Financing (IPF) lending instrument using a results based financing (RBF) modality. Funding for Component 1 will be results-based, and project funds would be disbursed against an eligible expenditure program (EEP) (up to a capped amount and against achievement of agreed DLIs). EEP is defined as expenditures on all project funded activities under TEQIP-III project as incurred by GOI, eligible project States/ UT and institutes. This will include salary expenditures. Component 2 would use direct reimbursement of project expenditures. Total project costs are estimated to be US\$400m, of which IDA will finance US\$200m.

#### Project Cost and Financing:

Project Components	Project cost US\$m	IDA Financing US\$m	% Financing
1. Eligible Expenditure programme ("EEP") under Part A of the Project	318	159	50
2. Goods, works, non-consulting services consultants' services, incremental Operating Costs, Training and Workshops under Part B of the Project	85	42.50	50
<b>Total Costs</b>	<b>403</b>	<b>201.50</b>	<b>50</b>

### 1.5 Project Implementation arrangements:

The implementation arrangements for TEQIP III has been built upon the well-functioning implementation arrangements for TEQIP I and II, with appropriate improvements. TEQIP III is a Central Sector Scheme, which means MHRD will fund 100 percent of project costs. Overall responsibility will lie with the Department of Higher Education of MHRD. MHRD will constitute a National Steering Committee (NSC) assisted by a small National Project Directorate headed by the National Project Director (NPD). MHRD will delegate the day-to-day implementation to the National Project Implementation Unit (NPIU). NPIU will operate state-level implementation units, called State Planning Implementation Unit (SPIU), in each focus state/UT. SPIUs will be professionally competent and dedicated state-level implementation structures, with the objective of enhancing program

implementation capacity in participating institutes and strengthening the engineering education system in focus states. SPIUs will work closely with the State Steering Committee and the State Department of Technical Education in focus states, seeking guidance as necessary and providing regular updates to the Secretary of Technical Education in the state. Since TEQIP III is a Central Sector Scheme, with full funding from the Central Government, each SPIU will be accountable to MHRD/NPIU against a pre-determined set of performance goals as described in the PIP and their Terms of Reference. In non-focus states, a skeletal version of SPIUs will operate, with the primary objective of ensuring that activities, outputs and outcomes in the Twinning Agreement are met, and all related supporting activities are undertaken as per the PIP.

MHRD will enter into an MoU with each state, and each state will enter into an MoU with each participating institute. At the institutional level, the BoG will be the body with overall accountability, while the principal and senior management are responsible for institutional project design and implementation. Day-to-day implementation will be coordinated by an Institutional Development Unit headed by the institute director and assisted by a senior faculty member as the Institutional Development nodal officer.

At national level for facilitating, implementing, coordinating and monitoring of the project, National Project Implementation Unit (NPIU) has been constituted and at State level each State Project Implementation Unit (SPIU).

#### **A. Results Monitoring and Evaluation**

Following on TEQIP I, TEQIP II built a strong web-based MIS, which has helped in project monitoring and evaluation, specifically in using performance information to provide incentives to institutes. TEQIP III will build on existing MIS systems, and ensure the MIS is adapted to each institute's needs, allowing it to report on TEQIP III Issues and other Issues deemed useful for the institute's own internal decision-making. The MIS system will also be designed to generate the data required for the AICTE approval and NBA accreditation processes, to enable institutes to meet all demands for data through an integrated system. In addition, the project will work with the AICTE, the NBA and ATUs to harmonize their reporting requirements, to further simplify the reporting process for institutes. The MIS will be funded through Component 2. Training provided to M&E staff at the national, state and institutional levels will strengthen M&E capacity.

In addition, the project will also support the development of ERP/MIS at selected ATUs to promote more effective administration and decision-making. To avoid duplication, the ATU ERP/MIS will be linked to the institutional MIS of TEQIP III institutes. For non-TEQIP III institutes, data will be collected through web-based systems linked to the ATU ERP/MIS. The development of the ATU ERP/MIS will be funded through Sub-component 1.2.

#### **B. Sustainability**

The overall project focus on institutional development is with sustainability in mind. The project's emphasis on well-functioning government bodies, more delegated authority to manage their affairs, and capacity to generate own revenues, involve changing behavior of key players at a fundamental level. TEQIP I and II required institutes to put aside specific funds for the ongoing maintenance and development of the institute once the project period ended; this will continue in TEQIP III. The activities related to ATUs target significant improvements in the way the ATUs function, for all their affiliated colleges, such that project reforms spread to other institutes. Finally, the emphasis on all engineering institutes in focus states versus other states is intended to change the way the system operates, and enable them to utilize other funding more effectively.

## C. Project Implementation Agencies

1. The implementation arrangements for TEQIP-III will build upon the well-functioning implementation arrangements for TEQIP I and II, with appropriate improvements. TEQIP III is a Central Sector Scheme, which means MHRD will fund 100 percent to project costs.
2. At the National level, the project will be guided by a National Steering Committee (NSC) and managed by a National Project Directorate, assisted by National Project Implementation Unit (NPIU). The NSC will provide overall policy directions for project activities and for implementation of systemic policy reforms.
3. At the **State** level, the project will be guided by State Steering Committees (SSCs) assisted by their respective State Project Implementation Unit (SPIUs) located in the State Directorates concerned with Technical Education.
4. At the **Institutional** level, the project will be implemented by the Institutional TEQIP Units under the overall guidance of their respective Board of Governors (BoGs).

### 2.6 Key Project Documents for reference:

In order to obtain comprehensive guidelines about other related procedures of the project, the following may also be referred to :

### 2.7 Financial Management Manual:

The “Financial Management Manual” (FMM) developed for the Project provides the essential information, to enable the SPIUs, the NPIU and project institutions to carry out effectively the financial operations in the Project. It is a guide to the implementation agencies for understanding the detailed Financial Management of the Project.

### 2.8 Purpose of the Manual:

The prime objective of evolving this manual is to bring in uniformity in Financial Management arrangement of the project, such as accounting, financial reporting, audit etc., and to make participating CFIs / ATUs/States Institutes / SPIUs familiar with the guidelines and standards to be adopted while implementing the project. It is also hoped that this manual will provide supportive information in complying with the rules set henceforth.

### 2.9 Applicability of the Manual:

This manual shall be applicable to all participating agencies, such as Govt. Aided/Funded/Centrally Funded Institutes; National Project Implementation Unit (NPIU) at National Level; State Institutes and State Project Implementation Units (SPIUs) at State Level; including ATUs, IITs/IIMs etc.

## SECTION-3 OVERVIEW OF FINANCIAL MANAGEMENT SYSTEM

### 3.1 Scope:

The Project will be implemented as in pursuance of the National Policy on Education (NPE-1986 revised in 1992) through the Ministry of Human Resource Development (MHRD) of the Government of India. The Project will be implemented as a **Central Sector Scheme (CSS)** with 100% funding by Government on India.

India comprises apart from 07 Union Territories, 29 States in the general and 11 States in the Special category. The Special category states are Arunachal Pradesh, Assam, Himachal Pradesh, Jammu & Kashmir, Manipur, Meghalaya, Mizoram, Nagaland, Sikkim, Tripura and Uttarakhand. These states have some distinct characteristics like international boundaries, hilly terrains and have distinctly different socio-economic development parameters. These States also have geographical disadvantages in their effort for infrastructural development and hence these States deserve special assistance.

### 3.2 Grouping of Expenditures:

Under the project, the Expenditure has been grouped into components and sub-components in line with the objectives of the project. There are three broad components consisting of various sub-components. Expenditures incurred by each unit under any/all of the heads have to be booked accordingly for the project. The Expenditure components are as follows:

#### **Component 1: Improving quality and equity in Engineering institutes in focus states**

- **Sub-component 1.1** : Institutional Development Grants to Participating Institutes
- **Sub-component 1.2:** Widening Impact through ATUs
- **Sub-component 1.3:** Twinning Arrangements to Build Capacity and Improve Performance of Participating Institutes and ATUs

#### **Component 2: System-level initiatives to strengthen sector governance and performance**

### 3.3 Budgeting:

The project will follow the budgeting cycle of GoI i.e. April to March and the process will be completed when project's expenditure (IBRD financing and counterpart financing) estimates are included in the Union government's budget presented and approved by Parliament. The project will be budgeted on the expenditure side at the Union (centre) level, as externally aided project under an identifiable budget head item (demand no. XX) of the MHRD.

**Budgeting Process:** For project activities will be as follows:

- **National Level:** NPIU will be responsible for preparation of the budget for its own expenditure, releases to states as well as expenditure to be incurred by the project institutions.

- **Institutions Level:** Basis for project activities in each state will be the Institutional action plan in a quarter based on their PLA in the project. The action plan will be prepared on quarterly basis by each institution. SPIU will also prepare action plan on quarterly basis.
- The quarterly action plan will be uploaded in the PFMS for expenditure after obtaining approval of MHRD to be incurred by the institutes. The Ministry of Finance, under Department of Expenditure, Govt. of India has developed Direct Transfer of Fund to the Beneficiaries in the PFMS.

**3.4 Accounting:** It is envisaged that the computerized direct fund transfer system will also have a separate module for accounting under the project. Presently, most states/ institutions use an off-the-shelf accounting software for recording/ compilation of information. Books of accounts for the project will be maintained using double-entry book keeping principles. Standard books of accounts (cash books, journals, ledgers, etc.) will be maintained at the state and institutes. A Chart of Accounts (standard activity list) is available at **Annex No. IX**.

**3.5 Reporting:** the project will have a system of submission of Financial Management Indicators on reports on FM Issues in every six months. NPIU will submit consolidated Interim Unaudited Financial Reports (IUFs): for component 1 in quarter 4 and for component 2 after completion of six months. The institutes will submit a certificate on quarterly basis that whether the expenditure shown in the PFMS portal is as per their books of accounts (Refer page No. --- for details)

**Internal Control Framework:** The FM Manual of the Project will set out the FM framework and procedures to be followed by all implementing agencies. Internal controls in the Project will at minimum include authorization and approvals in accordance with the approved delegation of powers; verifications of supporting documents for payments in compliance with approved policies by competent authority; segregation of Duties i.e. FM function being independent of procurement and administration; dual signatories for approval of expenditures at all level of implementation; and physical controls for assets procured from credit proceeds. (Refer page No. --- for details)

### **3.6 Statutory Audit:**

#### **Consolidated Audit Report for Project:**

The NPIU will consolidate the audit reports of the SPIUs (1.1 institutions and SPIU), 1.3 institutions in non-focus status, CFIs and the NPIU. There will be one single audit report for the entire project which will be submitted by NPIU to the World Bank by 31st December of every year.

**NPIU:** Annual Audit Report of the NPIU by a firm of chartered accountants will be completed by **30<sup>th</sup> September** of every financial year.

**SPIU:** The SPIUs in focus states will appoint a firm of chartered accountants for audit of the SPIU and project institutions within the State by following the World Bank norms and procedure for appointment of auditors.

**Audit of Institutes:** The auditor will audit the project accounts of the institutions. For this purpose, the institutions are required to furnish all documents/records to the auditors to facilitate timely audit. Each institution will put up the audit report to Board of Governors within a reasonable period of completion of audit.

SPIU will send minutes of the meeting to NPIU.

### **4.3 Training:**

The training on the Financial Management for the project institutions and SPIUs shall be conducted by NPIU from time to time at various places in the country on quarterly basis region wise. The training on the PFMS shall also be given simultaneously with the FM training. The training on Financial Management is a continuous process.

## SECTION-5 BUDGETING AND FLOW OF FUNDS

### 5.1 Budgeting:

The project will follow the budgeting cycle of GoI i.e. April to March and the process will be completed when project's expenditure (IBRD financing and counterpart financing) estimates are included in the Union government's budget presented and approved by Parliament. The project will be budgeted on the expenditure side at the Union (Centre) level, as externally aided project under an identifiable budget head item (demand no. XX) of the MHRD.

Separate budget line shall be open for TEQIP-III in MHRD budget.

### 5.2 Budgeting Process: For project activities will be as follows:

- **National Level:** NPIU will be responsible for preparation of the budget for its own expenditure, releases to states as well as expenditure to be incurred by the project institutions.
- **Institutions Level:** Basis for project activities in each state will be the Institutional action plan in a quarter based on their PLA in the project. The action plan will be prepared on quarterly basis by each institution. SPIU will also prepare action plan on quarterly basis.
- The quarterly action plan will be uploaded in the PFMS for expenditure after obtaining approval of MHRD to be incurred by the institutes. The Ministry of Finance, under Department of Expenditure, Govt. of India has developed Direct Transfer of Fund to the Beneficiaries in the PFMS.

## 5.4 Funding Pattern:

The activities of the National Steering Committee (NSC), the National Evaluation Committees (NECs), the National Project Directorate (NPD), the National Project Implementation Unit (NPIU) will be funded through the NPIU. The activities of the State Steering Committee, State Project Implementation Unit (SPIU) will be funded through the respective SPIUs. The expenses on BoG activities will be met through the Institutional project funds.

## 5.5 Fund Flow:

**Centralized system for Fund flow :** The project is implemented as a Central Sector Scheme, implying that it is 100% funded by the Union government and implemented by the Central Government machinery. In addition, under TEQIP-II substantial delays were observed in the flow of funds following the State treasury route. With this background, MHRD has developed **Direct Fund Transfer System** in the PFMS.

## 5.6 About PFMS (Public Financial Management System)

For the support of Central Sector Scheme, the Public Financial Management System (PFMS) which is administered by the Controller General of Accounts in the Department of Expenditure is an end-to-end solution for processing payments, tracking, monitoring, accounting, reconciliation and reporting. It provides the schemes managers a unified platform for tracking releases and monitoring their last mile utilization.

All Implementing Agencies (IAs) receiving and utilizing funds need to be mandatorily registered on PFMS and the usage would be as per financial limits at different levels/stakeholders. For all agencies which will draw funds from Central Pool Account Digital Signatures of the designated officials shall be required. There will be one, Maker (Data Operator) and One, Checker (Data Approver) for effecting the payments through digital Signatures uploaded in the system. The project institutions will be informed to formulate action plans with quarterly budget requirement in each component and sub component. Excel uploaded facility would be made available instead of manual entry for each component/sub-component/expenditure activity. The authority for upload would be at NPIU level. Also the edit facility would be available to NPIU only.

### Objectives of PFMS

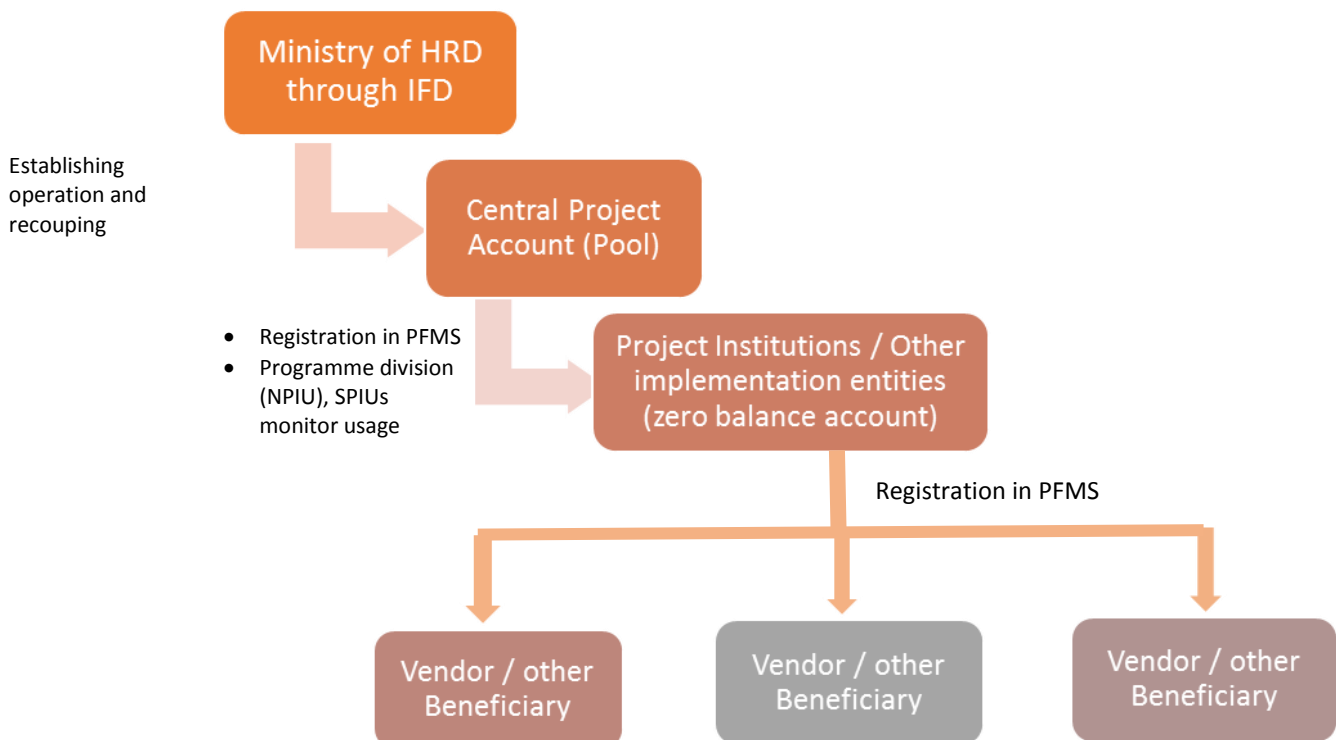

- **Monitoring of flow of funds** from Centre to the lowest level of implementation-
- **Registration**, alongwith their **bank accounts**, of all agencies receiving plan funds - at all tiers of operation.
- **Payment to ultimate beneficiaries** through banking channel
- **Reduction of float/ funds** in the agencies' bank accounts
- Capturing **component-wise expenditure** on real time basis at all tiers of implementation
- **Decision Support System (DSS)** to all levels of programme administration
- **Enhance transparency & accountability** in public expenditure.

### Benefits of PFMS

- PFMS is a web based software – no requirement of any hardware or software
- It is not platform specific – works on any operating system
- Transfer funds directly without manual intervention
- Component/Activity wise report
- Centralised System

**Flow of funds:** The diagram below reflects the anticipated authorization and flow of funds:

### TEQIP PHASE-III : Direct Fund Transfer System

### 5.7 TEQIP Payment Procedure:

**1. Programme Division:** In addition to the normal sanction issuing procedure adopted by the Programme Division, the following action shall be taken by the PD to operationalize the TEQIP-III scheme through PFMS

- (a) **Setting IFD limit:** Programme Division (PD) of the Ministry has to enter the details of quarterly Mother Sanction approved by IFD in this module., **Go to sanction>IFD Limit.** Select scheme and State from the Dropdown. Enter IFD number, Date and Amount in the respective columns. Submit the details. Sanction issued for that quarter cannot exceed the limit set in the mother sanction. Unused amount in the previous quarter may be allowed to carry forward to the next quarter with the approval of Ministry.

- (b) **Upload Agency Expenditure Allocation:** PD has to upload the quarterly budget allocation to NPIU from this link.

**Go to Masters>Agency wise allocation.** Select the scheme and the quarter to which allocation is made. Download the template. Fill up the template as per the instruction given and save it in desired location. Go to the same location in PFMS and upload the excel file from the saved location. Details of the uploaded file will be shown in a grid. The status should be shown as “Successfully Uploaded” in the status column. If any validation error is shown click on Validation Error hyper link and see the error mentioned. Rectify the excel file and upload again.

2. **Central Agency (NPIU):** The additional features that to be adopted by NPIU is explained below:

- (a) **Agency wise Budget Allocation:** Go **Masters>Agency wise allocation.** Select the scheme and Download the template. Fill up the excel sheet in the desired location. From the same location (masters>Agency wise Allocation) select scheme and quarter to which allocation is made. Already allocated amount, expenditure made so far and balance available for allocation fields will filled up. Enter the amount of present allocation. Choose the file from the saved location and upload. The status of uploaded file should be “Successfully Uploaded”.

- (b) Approval of Request from Child Agency for Account Mapping. The child Agencies (institutes) will be drawing money from NPIU account for meeting the expenditure of the scheme as per the allocation made of them. The institutes are required to submit a request to NPIU for allowing them to draw money from NPIU account. This request has to be approved by NPIU to enable the institutes to draw money from the pool account maintained by NPIU. This is a onetime process.

Log in with the Data Administrator Log in and Go to My Scheme>Approve Parent Account Mapping. Select the Scheme and Search. Requests submitted by child agencies will be displayed. Select the agency by clicking on the check box and enter a remark and accept or reject as the case may be.

3. **Child Agency (Institutes) Level:** The institute has to submit a request for using the pool account maintained by NPIU for debiting that account. Institutes has to log in with the Data Administrator user credential to execute the request.

Go to My Scheme>Agency Account Parent Mapping. Select the scheme. Select Parent Agency name or enter the parent agency unique code in the box provided and click on search button. Parent Agency Account/s details with balance available will be displayed. Select the account by clicking the check box at the extreme left and enter a remark and submit. Once the request is approved by the Parent Agency (NPIU), child Agency will be able to debit the account at the time of booking expenditure.

## SECTION-6 FINANCIAL ACCOUNTING

### 6.1 Accounting System:

The Project Implementing Agency is supposed to maintain a Financial Management System including adequate accounting and financial reporting, to ensure that it can provide to the World Bank and the Government of India, accurate and timely information regarding the project resources and expenditures.

Financial reports generated from the above accounting system will be comparable to Programme allocations, yearly budgets, forecasting and utilization of funds relating to physical and academic achievement as targeted under the Programme.

### 6.2 Accounting Centers:

The main accounting centers are:

- a. Basic/Advanced institutions
- b. Participating SPIU
- c. Participating CFIs
- d. Participating ATUs
- e. NPIU
- f. IITs/IIMs

### 6.3 Method of Accounting/Accounting Policies/Basis of Accounting System:

- (i) Each accounting unit i.e. NPIU, SPIU, and Basic Fund Institutions/Advanced Fund Institutions would adopt Double Entry System of book keeping on Cash basis.
- (ii) All payments will be charged off to relevant project activity account head at the time of making the payments, except advance payment.
- (iii) Advance payments will be charged off to the relevant project activity account head on adjustment.
- (iv) Assets created out of project will be accounted at cost.
- (v) No depreciation will be provided on Fixed Assets acquired under the project.

#### 6.4 Project Accounting & Standard Books of accounts to be maintained:

To ensure a transparent and accurate accounting system, the following actions are required:

- Separate books of accounts and record of fund flow for the project funds will be maintained by each management structure at institutional, State and National levels i.e. by Basic Institutions, Advanced Institutions, SPIU, NPIU and participating ATUs. Each of these management structures will maintain standard Books of Account (Cash Book, Bank Book, Journal, Ledgers, etc.)
- The following table shows the applicability of software for maintenance of accounts:

S.No.	Name of the Entity	Nature of Expenditure	Accounting Software

- **Chart of Accounts:** The Chart of Accounts provides the detailed list of ledger accounts that are required to be maintained by the project participants. The Chart of Account is mandatory for all project participants. Each accounting unit i.e. NPIU, SPIUs and project institutions would maintain a detailed chart of accounts for booking of expenditure under the project.

As the said chart of accounts comprehensively covers all the account heads that would be required to account for transactions under the project, it is expected that no additional accounts will be required to be opened. However, in case additional accounts are required to be opened, the same may be done in consultation with NPIU, in order to ensure uniformity across the project.

Chart of Accounts is placed at **Annex-IX**

- **Mapping of Expenditure:** The Mapping of Expenditure provides the information about the permissible expenditure of the project under different components and sub-components to be reported under respective accounting head.

Since accounting is in the nature of project accounting, it is more important to account and report on the project activities. Information on traditional accounting heads like civil works, consultancy etc. may be recorded by using “cost centre” functionality which is commonly available in all financial accounting software.

Mapping of Expenditure chart is placed at **Annex-X**

To ensure transparency in the system, accurate records will be kept at Institutes, SPIU, NPIU and ATUs. These records will have to be supported by documents/vouchers, etc. in order to establish accuracy and authenticity of expenditures.

**SAMPLE AUDIT REPORT—UNQUALIFIED OPINION****Auditor's Report:**Addressee<sup>4</sup>**Report on the Project Financial Statements:**

We have audited the accompanying financial statements of the \_\_\_\_\_ Project financed under World Bank Credit No.\_\_\_\_, which comprise the Statement of Sources and Applications of Funds and the Reconciliation of Claims to Total Applications of Funds<sup>5</sup> for the year ended \_\_\_\_\_. These statements are the responsibility of the Project's management. Our responsibility is to express an opinion on the accompanying financial statements based on our audit.

We conducted our audit in accordance with the Engagement and Quality Control Standards promulgated by the Institute of Chartered Accountants of India (ICAI). Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements present fairly, in all material respects, the sources and applications of funds of \_\_\_\_\_ Project for the year ended \_\_\_\_\_ in accordance with accounting principles generally accepted in India.

In addition, in our opinion, (a) with respect to expenditure adequate supporting documentation has been maintained to support claims to the World Bank for reimbursements of expenditures incurred; and (b) except for ineligible expenditures as detailed in the audit observations, if any, appended to this audit report, expenditures are eligible for financing under the Credit Agreement. During the course of the audit the expenditure statements and the connected documents were examined and these can be relied upon to support reimbursement under the Loan/Credit Agreement.

Selection is made following the 'Quality and Cost based Selection' [QCBS] as per paragraph 2.1 of the Guidelines: Selection and Employment of Consultants by World Bank Borrower, January 2011. This method uses a competitive process among short-listed firms that takes into account the quality of the proposal and the cost of the services in the selection of the successful firm. The final ranking will be done by applying a weightage of 75 percent and 25 percent respectively to the technical financial score of each evaluated qualifying Technical and Financial Proposal and then computing the relevant combined total score for each bidder.

The selection process shall include the following steps:

- (a) Preparation of the TOR;
- (b) Preparation of cost estimate and the budget, and short-listing criteria;
